

EviCode: Studying Observations for Semantic Confidence

A transparent analysis instrument preserves each observation before confidence estimation

4. DECISION

Illustrative confidence

0.87

✓ Accept

? Review

✗ Reject

Explanation

supporting and weakening observations retained

5. ANALYSES ENABLED

Informative power

$F_1/\text{AUC}/\text{MI}$

Complementarity

ΔF_1

Redundancy

correlation

Cost

time/budget

Calibration

reliability

Failures

case studies

6. OUTCOMES

✓ Interpret evidence

✓ Route candidates

✓ Use tests wisely

✓ Design better metrics
